

DESIGN OF A MOSQUITO TRAP

First name:

Last name:

Team name:

Using the information provided in the “life of a mosquito” presentation, design a mosquito trap fulfilling the following criteria:

FUNCTION	DESCRIPTION	CRITERION MET
MOSQUITO ATTRACTION	The trap must attract mosquitoes but no other insect.	
MOSQUITO TRAPPING	Mosquitoes can enter in the trap and should not be able to get out, but other insects shouldn't be able to get trapped.	
DISCRETION	The trap must blend into its surroundings and not be easily detected by humans or other animals.	
SAFETY	Mosquitoes can carry diseases, so the trap must be locked safely and shouldn't be openable without a key, a code, or any other secured system.	
RESILIENCE	The trap being placed outside, must resist bad weather, rain, strong temperatures...
